

International Test Pilots School Call for Presenters

Thursday, December 16th, 2021
Friday, December 17th, 2021

ITPS Canada
In London, Ontario, Canada

* This event will also be available online.

08:30 to 16:30 Eastern Time (Canada)

Presenters, please contact
Dr. Panos Vitsas – Panos@ITPSCanada.com

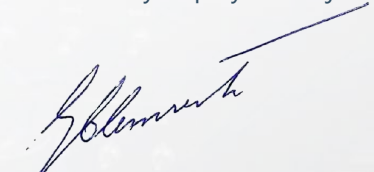

The International Test Pilots School is hosting its 10th Annual Flight-Testing Seminar at ITPS in London, Ontario. We are confident that this 10th anniversary of our seminar will be as informative and enjoyable for attendees as previous events. As in past years, the Canadian Chapter of the Society of Flight Test Engineers (SFTE) will be co-hosting this timely event.

We invite you to mark your calendars. The event this year will be an in-person event, however, online attendance will also be possible. A registration invitation will follow in the coming months. ITPS's annual flight test seminar creates an opportunity to share present, past and future flight test-related subjects in addition to providing networking opportunities within the international aerospace industry and air arms.

This is an invitation for presentations. No written papers are required, and sessions should last 30 minutes and then allow ten minutes for questions. The event is two days, culminating with a Gala Dinner Friday evening, December 17th, 2021.

Kelly Morrison will help with accommodation and other arrangements for guests and presenters planning to attend the event and dinner in London. Please get in touch with her at kelly@itpscanada.com or +1 (519) 457-3625.

We certainly hope you will join us for this event as we celebrate the World of Flight Testing.
