The Aero Vodochody L-39 Albatross The Best made better

**Equipped with modern large area
displays featuring colour touch screens**

The Aero L-39C Albatross is one of the most widely adopted jet trainers and remains in active service with air forces around the world. It is a robust, reliable, proven jet trainer. The ITTC fleet features upgraded cockpits with modern displays and hands-on throttle and stick controls. The ITPS fleet is comprised of eleven jet trainers including Albatross, Delphin and Hawker Hunter jet trainers. When coupled with the live virtual constructive technology, our simulators and tactical control room can better network to create realistic and complex mission scenarios.

Advanced simulator facility to enhance learning experience and expose trainees to modern fighter aircraft systems.

ITTC leverages the benefits of modern simulation technology and enhances the learning experience through the use of Virtual Reality and Live Virtual Constructive training, dramatically increasing the effectiveness of the training and slashing costs. ITTC graduates are prepared to lead in modern air combat.

ITTC provides off-the-shelf training programs and on demand training programs tailored to the customer's unique requirements, in Canada or the customer's country of origin.

Lead-In Fighter Training

Student Wellbeing

Topflight Support

ITTC prides itself on providing outstanding support for students and their families. Whether helping place children in local schools or arranging extended medical coverage for students and accompanying family, our on-site Student Welfare Officer ensures the smooth transition for life in Canada.

From arrival to departure, ITTC is here for you. Transportation can be scheduled for pick up and / or drop-off at Pearson International Airport to alleviate the stress of navigating an unfamiliar country. Once settled, ITTC can assist with vehicle and accommodation rental through our preferred suppliers.

ITTC is a division of ITPS

Part of a heritage extending back to ITPS's founding in 1986

Expanding the horizon for international training

ITTC is a well-established, Canadian-based tactical training school operating out of London, Ontario. Our world-class team of instructors are here to train international and domestic pilots to become certified in air-to-air combat. Our portfolio of clients continues to grow and includes work with over 25 air forces from around the world. ITTC provides elite pilots the unique opportunity to hone their skills by drawing upon the knowledge and experience of internationally acclaimed instructors in a multicultural environment.

A world-class modern training facility in Canada

ITTC is a division of ITPS Canada, a Canadian corporation based in London, Ontario. The facilities in London are amongst the most modern available and ideally located in Southern Ontario, south of Toronto. ITTC provides a stimulating learning environment, staffed by a team of international professionals

The Best Learning Environment

ITTC is a division of ITPS Canada, a London, Ontario based Canadian corporation.

- Spacious classrooms with full audiovisual equipment
- Direct access to aircraft and simulators
- Ample briefing rooms with mission replay facility
